Bell Telephone Bulletins

9—HOW TROUBLES ARE REPAIRED

There is no red tape around our method of repairing telephone troubles and correcting faults in the service. When a report of trouble is made to us it goes immediately to the proper department and the investigation begins at once. The equipment, that is the subscribers' line from the switchboard to the telephone instrument, is thoroughly tested, and if necessary, is inspected personally by a competent man. We have delicate instruments on the test-board that show the nature of a trouble and indicate its location.

Oftentimes the trouble is in a cable or in a telephone instrument and is of an involved nature. In such cases it is necessary to send a man out on the trouble. This requires more or less time and we realize that there is likely to be an unfortunate appearance of delay on our part. We hope our subscribers will understand that we are not neglecting their trouble just because they do not see a man actually at work on their telephone. Frequently troubles occur on telephones and are detected by us and corrected by us without the subscriber knowing his line has been out of order.

The only thing in which we deal is telephone service. We cannot give good service over lines that are in trouble. It is to our vital interest to keep all lines clear and we are constantly on the job. We employ men who are especially trained for this work. A complete record is kept of every trouble and complaint, the hour it is reported and the hour it is corrected. We are in close touch with the situation at all hours. We want our subscribers to know this and to realize that their interests are our interests.

What Cures Eczema?

We have had so many inquiries lately regarding Eczema and other skin diseases, that we are glad to make our answer public. After careful investigation we have found that a simple wash of Oil of Wintergreen, as compounded in D.D.D. Prescription, can be relied upon. We would not make this statement to our patrons, friends and neighbors unless we were sure of it, and although there are many so-called Eczema remedies sold, we ourselves unhesitatingly recommend D.D.D. Prescription.

Drop into our store today and let us tell you how we back our opinion with a money-back guarantee. Ask us also about D.D.D. Soap, it helps.

Cough Medicine For Children.

Never give a child a cough medicine that contains opium in any form. When opium is given other and more serious diseases may follow. Long experience has demonstrated that there is no better or safer medicine for coughs, colds and croup in children than Chamberlain's Cough Remedy. It is equally valuable for adults. Try it. It contains no opium or other harmful drug. For sale by all dealers.—Adv.

A result of the epidemic of foot and mouth disease which has been prevalent in this State, 819 head of cattle have been slaughtered, at a cost of \$39,500. Of this amount the Legislature will be asked to appropriate \$25,000 to reimburse the owners whose stock was slaughtered.
